Devoted to the Up-Building of Gleichen and the Development of the District Generally

Year VI, No. 34.

GLEICHEN, ALBERTA, THURSDAY, NOVEMBER 7, 1912.

\$1.50 Per Year

## The Circle Farm

O. G. Colquhoun, manager of the "Circle Farm", was in town the other day and our reporter asked him:

"How is the Circle Farm making out?"

"Well, now I really cannot get used to that term 'Circle farm'. I still call it the Circle Ranch. I simply can't break away from the old ways," said our friend Cal.

"However, the 'farm' is doing nicely for the first year."

"We have raised 11,500 bushels of No. 1 flax on the whole farm with an average of 18 1/2 bus. an acre and we had in 700 acres of grain this year. Remember the land was broken between September 1st and Oct. 25th last year."

"At the home ranch, I mean farm—we had in 127 acres of flax that went 25 bushels to the acre, Ed. McCallum, on his lease of 250 acres averaged 17 bus. to the acre, and John Kidd had the same average on 150 acres. Their leases are practically worked on shares, and accordingly the Circle gets half their crop for furnishing seed, etc."

Thus the home farm has over 10,000 bushels of flax, which their manager states has been graded at Calgary as No. 1.

Asked if it was intended to sell the flax at once, Mr. Colquhoun said that it would be all disposed of immediately, except sufficient for the next year's seeding. Then he added that if any of the farmers required seed that they should apply at once to him.

He had only put in a little over an acre of wheat on the soil, and this yielded 52 bus. to the acre, 100 acres of oats yielded 4,000 bus. or 40 bus. to the acre and four acres of barley returned 124 bushels—all of which was on last fall's plowing.

It is the intention to plant 500 acres of breaking for next year, and contracts will be let for breaking and plowing to steam outfits.

It would seem "Cal" is proving as good a farmer as he did a cowboy, but he still intends to keep stock in view and will leave shortly for the east to purchase 300 head of cattle to feed on the farm.

## Standard News

N. P. Nelson was in from Standard Tuesday and said he believed the crops in that vicinity were a fair average so far as he could judge after spending nine years in the Gleichen district. He was formerly a railroad contractor and believed he had a good opportunity to judge the crops in Alberta during his contracting career, and has now purchased 400 acres adjoining Standard. This year he had his first crop in which consisted of only about 50 acres of oats, but they yielded 70 bushels to the acre.

He was quite satisfied with his first venture and said he would proceed to break more of his land. He figured on keeping about 100 acres for pasture all the time and after he got started properly to summer fallow 100 acres each year, believing by working on this method he could count on the best results from his land. He had settled to make his home here and did not expect to make his fortune in one crop, but intended to keep on farming steadily and give his land a fair chance. It was his opinion too many farmers started with the expectation of making a fortune within a few years and then leaving and believed this class were attempting too much and really accomplishing very little either for themselves or the country. He was pleased, however, to see that many of the farmers about were going into mixed farming pretty strong and thought they were bound to

## 188,400 BU. GRAIN SOLD SO FAR

The principal point in the grain business this week is a shortage of cars and at the present time of writing 110 cars are on order. The farmers, the elevator men and the railway men are all "kicking" for more cars. Of course the farmers are suffering the most direct loss, while the local elevator men and the railway officials have their troubles and are doing their utmost to relieve the situation, but their anxiety and willingness avails but little.

At the Sunny Belt yesterday, the manager said that a whole train load of grain could be shipped from Gleichen within the next two or three days if the cars were obtainable, and he regretted that in several instances he was obliged to take No. 2 wheat as No. 3 for the simple reason that the elevator bins were full of No. 1 and 2, although several cars had been shipped the past week.

The Imperial manager was in much the same position, although he had shipped five cars of wheat, the elevator was still full, but he hoped to ship some at once.

The Alberta Pacific manager had a somewhat different story. He had plenty of room to handle grain of all kinds but oats for the farmers, for immediate shipment, but had no room for storage. He also had room for straight buying. He admitted cars were very scarce.

The farmers, however, are the men who have the greatest complaint, and at any time from 10 to 30 loads can be found around the elevators, the owners of which are clamoring for cars or elevators in which to store. One enterprising farmer said he had been promised storage room for 3000 bushels, but when he unloaded 1997 bushels was informed the bin was full. He applied to the next elevator, and was told he could unload 1100 bushels there, but after he had unloaded between 400 and 500 bushels learned the bin was full, and if he cared to unload it would have to go into the No. 3 bin. He unloaded, but figured he was out \$100, and so it goes.

	PAST WEEK	TOTAL TO DATE
Wheat	51,600	138,600
Oats	3,000	30,900
Barley		14,000
Flax		4,900
Total bushels for week	54,600	Total to date 188,400

succeed within a very short time.

Speaking of Standard he said it was sure to become the main town on the new railway line, and this was recognized by the Union bank opening a branch there last week. The town already has among several businesses two well equipped lumber yards, and a coal mine within five minutes walk, which has been well prospected which now employs five men but preparations are being made to put on a force of 25 miners. The seam now being worked is from four to six feet wide.

On the evening of October 31st, the Methodist Ladies Aid held a Halloween social at the home of Mr. John McEwen. The rooms were decorated with miniature witches, black cats, pumpkin faces and hobgoblins of various shapes and kinds. Among these fitted reel live witches serving tea and cake. According to the fortune tellers of the evening there are glowing times of fame and fortune in store for those who attended. The evening was pleasantly spent playing the usual Halloween games supplemented by a musical program of vocal and instrumental selections. Those who attended report a good time.

It is reported that George Webster has recently died of typhoid fever at Medicine Hat, but particulars are lacking. He was formerly a member of the firm of Johnston & Webster in Gleichen.

H. H. Princehouse, head of the Tuning and Repair Department of the Alberta Piano Co., Calgary, will be in Gleichen the 12th and 13th of November. Mr. Princehouse is a first-class tuner and repair man, also player piano expert. All work is guaranteed by the above company. Any one needing his services will please leave their orders at the Gleichen Hotel.

Now is the time to reserve space in the CALL's special number.

The second annual Bachelors ball on November 15th promises to prove even a greater success than last year, the invitations for which will be issued within the next few days. The CALL reporter has had a peep at the program and music, as well as hearing some of the plans discussed and has formed the opinion that the young men are about to eclipse all former efforts made in Gleichen.

Mr. and Mrs. H. B. Biggs and three children came in from Rosebud Creek a week ago and have been visiting their Gleichen and Calgary friends. It is well on to two years since Mrs. Biggs last visited town and her numerous friends were pleased to see her.

Since the report of the first hockey club meeting appeared, two other meetings have been held. At the first of these, Mr. MacKay submitted an offer to the club of property owned by Dr. Rose and himself in vicinity of the power house. This offer together with that of Mr. E. Griesbach was considered and finally accepted. The grading of the new rink has been finished and considerable progress made in erection work. The subscription list has been well received and everything points to a successful season.

## Ranching and Grazing Investigation Committee

Will set at 10 a. m. at

Calgary, Monday, November 18th  
Gleichen, Wednesday, Nov. 20th

All interested in this most important investigation are asked to be present.

GEO. HOPE, Chairman

CLARENCE F. GRAHAM.

(Continued.)

I would rather have the same faithful Dorothy who stuck to her raggedy doll in preference to all the waxen beauties, he said; you are the same Dorothy now as then. You don't change.

No—O—I don't think I change, she spoke slowly, her color coming and going, and yet—she did not finish her sentence, her eyes left her husband's face, and turned towards the summer sunset world without. I am glad I came to you when you wanted me, she exclaimed impetuously, turning back to him, if it were all to do over again, I would do exactly as I did before.

Silence fell between them after her impetuous words, and it was Miles who at last broke it. His words came a little hurriedly, he did not look at her as he uttered them, but it seemed as though they were forced from his lips.

Dorothy, he said. I—don't want you to answer me if you would rather not, but have you seen him—the other man—since—

Since all this trouble? or since—our marriage? she asked very quietly. I do not in the least mind answering you, Miles, you have a perfect right to ask. Yes, I have seen him once—only once. The meeting was an accidental one and I told him it must not happen again.

Although her voice was low, she spoke very firmly, and there was no embarrassment in her looks or manner; she knew Miles too well to dream that he could suspect her of doing anything of which she or he could be ashamed; she knew that he trusted her with an absolute trust.

I don't think he will have to wait very long now before he comes into his kingdom, her husband answered with a little laugh; all this business has taken it out of me more than I could have believed possible. I didn't know I was such a crock.

Oh! Miles you don't feel worse. I feel—as if some strength had gone out of me. It is ridiculous that I should feel as though I should have given a reasonable being such an upset; but—perhaps a sick man is not quite a reasonable being, and I've got to get used to the fact that I'm not only a sick man, but a dying man.

Don't, she said under her breath, and Miles looked at her with a tender smile.

You will be a little bit sorry when the end comes?

Ah! don't, she exclaimed again, and her husband saw such real pain in her eyes that he took her hand and led her out of the open window on to the terrace, saying cheerily.

You are perfectly right. We have no business to be talking sentimentally, and anticipating evils. One day at a time is quite enough to worry over, and the bridges had better wait till we come to them. Let us—he paused a moment and looked about him, as though he were drinking in the loveliness of the summer evening, let us make the very most of every minute that is left us. This is such a good world!

Such a good world, Dorothy repeated softly after him, her eyes following him across the lawn, to the wide bed where tall white lilies and stately larkspurs grew side by side, and clumps of sweet peas sent their delicious fragrance out upon the still air. On either side of the lawn pergolas covered with roses of deepest crimson and palest pink almost hid the paths that sloped down to the flower garden proper, whose terraces

MRS. G. A. SELBY AND CHILD

### Uses Only Cuticura Soap for Prize Baby

"I have always used Cuticura Soap and no other for my baby, and he has never had a sore of any kind. He does not even chafe as most babies do. I feel that it is all owing to Cuticura Soap for he is fine and healthy, and when five months old won a prize in a baby contest. It makes my heart ache to go into so many homes and see a sweet faced baby with the whole top of its head a solid mass of scurf, caused by the use of poor soap. I always recommend Cuticura, and nine times out of ten the next time I see the mother she says 'Oh! I am so glad you told me of Cuticura.' (Signed) Mrs. G. A. Selby, Redondo Beach, Calif.

Although Cuticura Soap is sold by druggists and dealers everywhere, a postal to "Cuticura," Dept. M, Boston, U.S.A., will secure a liberal sample, with 32p. book on the care of skin, mailed post paid.

### Let 'Em Hustle

Things political are moving so fast that some of the old wheel horses are having hard work to keep from being run over.

**Deafness Cannot be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed for ever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

J. CHENEY & CO., Toledo, O.  
Sold by Druggists, 75c.  
Take Hall's Family Pills for constipation.

### Jewel Ratio

You buy a pint of chestnuts. All toothsome from the wood, if fates are kind perhaps you find That two or three are good.

**Sores Heal Quickly.**—Have you a persistent sore that refuses to heal? Then try Dr. Thomas' Electric Oil. In the dressing, it will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is the recognized healer among oils and myriads of people can certify that it healed where other oils failed utterly.

**Snappers up of unconsidered trifles** are warned off the three new volcanic islands recently thrown up sixty miles southwest of Robinson Crusoe's old home.

**Minard's Liniment Cures Distemper**  
**How Careless**  
Jimmie Britt, not the pugilist, but the circus man, tells a story illustrating how soft hearted and sympathetic some of the ringmasters are when the acrobats get hurt. The heroine of the story was a girl who did the four-horse act, the six-horse act, the trapeze, and the flying bar, for all of which she received the princely remuneration of forty dollars a week.

One day she fell forty feet from the trapeze and landing precipitately and ill-advisedly on her left wrist, broke the bone near the elbow. The ringmaster ran up and sympathized as follows, with certain profane remarks which are here excluded:

What in thunder do you mean by falling out of that trapeze? I'm a son of a gun if some of your ginks don't try to put a crimp into this show every time we lift the tent!

15c a Tin.  
Don't let them fool you with a cheap imitation. SNAP is the ORIGINAL and BEST HAND CLEANER. Will remove grease and stain of all kinds.

### IN THE PANTRY OF ROYALTY

One Butler and Five Yeomen Take Care of the Silver and China

The pantries at Buckingham Palace consist of three large rooms on the ground floor, opposite the kitchens. In one is kept the silver in daily use, in another the china, and in the third the glassware is stored.

The three pantries are in charge of an official known as the pantry butler, who has five assistants, termed yeomen.

The duty of the pantry butler is to give out the silver, china and glass required daily for the royal tables and for afternoon tea; the pantry butler has also to see that all he gives out is returned to him after each meal.

The silver pantry is lined with mahogany glass framed cases, containing thousands of pounds' worth of silver plate. In one case there are two silver dinner services, containing several thousands pieces of plate. There are six hundred plates of various sizes, several hundred silver dishes, hundreds of silver spoons and forks, and a most valuable collection of old silver drinking mugs. Two of the latter were in the possession of Queen Elizabeth and are reputed to be worth \$50,000.

In another case are four silver tea services, one of which was a gift to Queen Mary from the German empress and is generally used at afternoon tea, which is served in the queen's private boudoir.

Overnight the pantry butler makes out the list of silver, china and glass that will be required on the royal dining room for breakfast, luncheon and dinner the following day, and his assistants put out on the tables in each pantry the required articles of table service which are taken to the kitchen and dining room after being inspected by the pantry butler.

The bulk of the royal plate is kept at Buckingham Palace, so when the court moves, a large quantity of it has to be taken to Windsor, Balmoral, or wherever their majesties may go.

The pantry butler is responsible for the packing of the plate, and it is always conveyed from one royal residence to another in his charge. The plate is packed in steel lined boxes made of oak, with iron bands. In the center of the cover of each are the letters "G.R.," surmounted by a crown. No china or glass has to be moved from Buckingham Palace, as a very large quantity of china or glass is kept in stock at all the royal residences.

The pantry butler is absolutely lord of his pantries, and none of the servants, with the exception of the pantry yeomen, is allowed to enter them without the butler's permission.

All the glassware used at the royal residence is of modern make, most of which now in use being purchased by the late king.

### Minard's Liniment Cures Garget in Cows

The Glory of the Mountain  
How beautiful is the life of the woods and mountains! It has been well said that a mountain is a mystery, especially if it be forest covered.

What deep ravines and beetling crags does it not conceal, what rushing streams; and in the foothills are deep, silent pools; where grow the loveliest flowers, and where the deer come to drink, and sometimes a bear! On Passaconaway may be seen in the early summer that most beautiful of small wild flowers, the Mitchellia; the petals are white at the outer edge, but toward the centre most delicately tinted. They cover the ground like a carpet, creeping among the ferns and mosses and the rich humus made of the fallen leaves of centuries. Then there is the Linnaea borealis, the favorite flower of the great naturalist Linnaeus, clinging to the moss with a complexion like a milkmaid; and oh! she is very, very sweet and agreeable. And you can find the checker-berry, the partridge berry, and the Indian pipe and the purple brunnella, wild asters, and a host of other flowers.

Most glorious are the woods and mountains in the clear days of late September, when there has been a frost at night, just enough to show that the color fairies have been at work; then dark hemlock and white spruce serve to enhance the rich coloring. You may walk or drive for miles amid the most gorgeous colors in the most bracing air, and under the bluest skies, and see the granite peak of Chocoma gleaming in the sunlight. It is hard to say when the mountains and woods are most beautiful at all seasons, even amid the winter's snows when snow shoeing and sleighing you go over the old routes once more, with the temperature below zero and the bright sun overhead.—H. Alexander Fessell in the Theosophical Truth.

Countless have been the cures worked by Holloway's Corn Cure. It has a power of its own not found in other preparations.

### Medical Women in Germany

It is stated that there are now 175 qualified medical women in Germany. They are distributed in the cities of Germany as follows: Berlin, 30; Munich, 7; Frankfurt on the Main, 5; Hamburg, 3; Düsseldorf, Breslau, Karlsruhe, Heidelberg, and Bad Elster, each 2; while a number of other places have one each. Most of the women doctors in Germany practise as specialists, especially in diseases of women and children. During the last few years, according to the British Medical Journal, the chances of medical women have steadily become more favorable in Germany. They often secure posts in hospitals, institutes, and asylums.

### George Ade Hears a Fable

The first time the Washington baseball team played Chicago this season, George Ade, famous for his fables in slang, met a friend in the street, who said:

Come on, George, and see this Washington team. It's a peach. It's a hummer. It's performance against Chicago will be as finished as the work of Jack Frost in a Georgia peach orchard.

That, said Ade, without racking a smile, sounds to me distinctly like a fable in slang.

To submit to a headache is to waste energy, time and comfort.

To stop it at once simply take

## More About The Loading Platform

The present generation of Western farmers will never know the difficulties and vexations experienced by their predecessors in the earlier years when no one could get a carload of grain shipped in bulk except by loading it through an elevator. The system forced the majority of farmers to sell their grain to the elevator owners at arbitrary prices, and oft times to submit to heavy dockage and other annoyances, causing continual dissatisfaction. Now, however, the distribution of cars as fixed by the Grain Act and the use of the loading platform, provide facilities which enable the farmer to secure satisfactory treatment in the disposal of his grain, and the highest market prices at time of sale. Every farmer therefore, should more and more endeavor to use the loading platform in shipping his grain to the terminal elevators. It is the safeguard of the farmer's freedom in disposing of his grain to the best advantage for himself. If farmers refrain from using the loading platform freely, it might result in its being done away with, because railway companies and elevator owners are strongly opposed to it. It is easy to understand why elevator people desire the loading platform abolished. The railway people on their part say it delays the loading of cars and helps to ensure one shortage. This we know to be nonsense, because frequently after cars are loaded, whether with grain, coal, lumber, or other merchandise, they are sidetracked for days and even weeks instead of being promptly moved forward to destination. It is engine shortage and shortage of competent train men that mostly causes grain blockades on railways and not lack of cars. Let every farmer therefore, do all he can to use the loading platform and become an independent shipper. In subsequent advertisements we will state in detail the savings and other advantages of direct loading into cars compared with loading through elevators.

We handle the farmers grain strictly on commission, make liberal advances on car bills of lading, supervise the grading at time cars are inspected, secure the highest prices at time of sale and make prompt returns when sold. Write us for shipping instructions and market information.

### MODEL 1912 20 GAUGE TAKE-DOWN Hammerless Repeating Shotgun

The lightest, strongest and handiest repeating shotgun made. It weighs only 5 1/2 pounds, yet all metal parts being made throughout of Nickel Steel, it has wonderful strength. In grace of outline and refinement of detail and finish, it is unapproached by repeating guns of other makes. It is exceedingly simple to load, unload and take down, and shoots with the strength and accuracy for which Winchester guns are noted.

Ask your dealer to show you one, or send to Winchester Repeating Arms Co., New Haven, Conn., for handsome, illustrated circular describing it.

A 20 GAUGE GUN FROM BUTT TO MUZZLE.

### Give England Siberian Climate

Great Britain is taking seriously the fanciful scheme of Mr. Barker a Brooklyn inventor, to deflect the Gulf stream by a breakwater off the coast of Newfoundland. Newspapers are asking what the British government is going to do about it.

There can be no doubt, says the London Evening Press that serious trouble will follow any attempt to do up of what little comfort remains in our wretched climate.

It is true England's loss will be a gain to a part of the British Empire, for Canada will get the benefit of a change in the parched shores of Africa.

Meanwhile England has the cheerful prospect of getting a climate like Labrador, which is in the same latitude.

The plan which would cost about \$200,000,000 is to build a breakwater 200 miles long; on the eastern coast, thus deflecting the icy currents from Labrador. The Gulf stream would then be free to run north, conferring upon "The Mother of Snows," a radiant climate like that of France.

The cold current would then turn south and refresh the parched shores of Africa.

Another fellow's sister always seems nicer to a young man than his own, until after he marries her.

Father—Do you know what happens to liars when they die?

Johnny—Yes, sir; they lie still.

### How oft an orator must go

Before the heedless throng And strain his vocal cords to show His mind is clear and strong! How oft in handshakes must he twist His muscles till they start And prove by toughness of the wrist His tenderness of heart!

An Irishman, passing a shop where a notice was displayed saying that everything was sold by the yard, thought he would play a joke on the shopkeeper, so he entered the shop and asked for a yard of milk. The shopman, not in the least taken aback dipped his finger in a bowl of milk and drew a line a yard long on the counter. Pat, not wishing to be caught in his own trap, asked the price.

Sixpence, said the shopman. All right, said Pat. Roll it up; I'll take it.

### Bad Blood

Is the direct and inevitable result of irregular or constipated bowels and clogged-up kidneys and skin. The undigested food and other waste matter which is allowed to accumulate poisons the blood and the whole system. Dr. Morse's Indian Root Pills act directly on the bowels, regulating them—on the kidneys, giving them ease and strength to properly filter the blood—and on the skin, opening up the pores. For pure blood and good health take

**Dr. Morse's Indian Root Pills**

# Chapped Hands AND Cold Sores

Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblains, or a "raw" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, and the smarting, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that it was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and it succeeded when all else had failed. It closed the big cracks, gave me ease, soothed the inflammation, and in a very short time healed my hands."

Zam-Buk also cures chafing, rashes, winter eczema, yaws, ulcers, festering sores, sore heads and backs, abscesses, pimples, ringworms, etc., cuts, burns, bruises, scalds, sprains. Of all drugs and stores, or post free from the Zam-Buk Co., Toronto. Price 50c a box.

### A Revelation to the Unsuspecting

The hero of this story is a famous dramatic author. The plays he has written have electrified thousands of people, and he has mastered the art of making men and women laugh or cry at his own sweet will. On one occasion a friend of his found him at his desk working on a new drama. So you are writing a new play? asked the friend. In reply the author confessed his sin. No, he said, I am just remembering one from all those I have seen produced. It's easier.

Hostess (to one of the small guests)—Now, dear, will you have some bread and butter to finish up with? Small Guest—No, thank you, I will have some cake to be going on with.

### Excursions to Eastern Canada Via Canadian Northern Railway

Christmas fast approaches, bringing with it the thought of the folks back home and the wish to be with them once again, to share in their Yuletide celebrations. It may have been only last year since one returned, but still the magnetic influence of the old familiar hearth is making itself felt in a way that will not be suppressed.

#### Every Opportunity

Whether it be a trip to the East, South, or any other portion of the globe, every opportunity is at hand and open to all. As the weeks roll by new lines are being opened up all through the West. Settlers living in new towns, situated in outlying districts hitherto beyond the pale of railroad development, suddenly awake and find within their grasp the transportation facilities, for which in many instances, they have been waiting for years. The golden opportunity has arrived.

Today the Canadian Northern announces its twenty-second annual reduced excursion rates to the East, tickets to be on sale from Dec. 1 to 31 and good for return for three months. Extension privileges will be allowed at the end of this period if required, and stop-overs are permitted at most points en route.

Besides the offering of extraordinary cheap rates, the Canadian Northern is able to add another inducement to the intending traveller in the way of a choice of routes. These are as follows: Through Winnipeg—through Port Arthur—by way of Duluth and Chicago—or lastly via St. Paul and Chicago. To the old seasoned travellers probably either of the routes through the United States will appear the most fascinating. To those intending to go this way, it may be interesting to know there is no trouble to be expected with the United States Customs, as baggage is sent through without examination.

The Canadian Northern is also offering a considerably lower rate to the Old Country and Europe, which will show a great difference between that and the ordinary fare. Tickets are good for five months' limit and will be on sale from Nov. 10.

The company has a great reputation for its dining car service, working on the plan of pay only for what one orders, and has recently received a number of new diners of the latest pattern. The Canadian Northern also announces very low excursion fares for the month of December to the Central States, to such points as Duluth, St. Paul, Chicago, Sioux City, Des Moines and Omaha, so that many lonely home-staying bachelors from the States will have the opportunity of spending Christmas and three months at home.

## OBLIGED TO QUIT BUSINESS

SO DREADFUL WAS THE SUFFERING FROM ITCHING PILES

After Twenty Years of Pile Torture Relief and Cure Came With

### DR. CHASE'S OINTMENT

You take no risk and you make no experiment when you use Dr. Chase's Ointment for piles. Many doctors still cling to the idea that nothing but an operation will effect a cure. But operations are expensive and dangerous, and often fail in their results. Some have been cured by Dr. Chase's Ointment after operations had failed. Dr. Chase's Ointment truly has a wonderful record as a cure for piles and all itching skin diseases. Here is a case which was reported recently:

Mr. John P. Marshall, 14 Barnes road, St. John's, Nfld., writes:—"For upwards of twenty years I was troubled terribly with itching piles; at times so bad that I was obliged to lay up, unable to attend to business."

"I tried many treatments without benefit, until I accidentally read of Dr. Chase's Ointment, and found at last a cure by using this ointment. I only used one box and part of a second one when I was completely cured, and have had no return of the piles. That was eighteen months ago, and needless to say, I attribute this cure to Dr. Chase's Invaluable Ointment."

Many sufferers from piles have tried so many scores of treatments that they cannot believe that cure is possible. In order to convince the skeptical we are always willing to send a sample box free to anyone who encloses a two-cent stamp to pay postage.

Dr. Chase's Ointment, 69c. a box, at all dealers, or Edmansons, Bates & Co., Limited, Toronto.

Quex—Well, supposing she did throw you over because you lost your money—there are as good fish in the sea as ever came out of it. Checks—I know, but that's small comfort for a fellow who has lost his bait.

### Minard's Liniment Cures Diphtheria

#### Financially Foolish

First Official Member—What do you think of the new preacher we tried out yesterday? Second Official Member—Won't do! We'd never lift the debt with him on the job. Why yesterday, when there were strangers present, he had them sing: I'm Glad Salvation's Free, while the collection was being made.

#### Practical Politics

Whom have you stated for postmaster at Plunkville, inquired the old senator. Wombat, answered the young congressman.

Why Wombat? Because his grandfather fell at Lundy's Lane.

My boy, you'll never make a politician at that rate. You give that job to Dingbat. His grandfather is still voting.

Many a man who talks like a war hero gets his meek little wife to interview the janitor every time he thinks it necessary to register a kick.

## Gall Stones Cured After 12 Years

A Winnipeg lady has been cured of gall-stones after suffering from that painful complaint for twelve years. She had taken many treatments and many remedies but each and all proved failures, until she took SANOL, the already well-known remedy for Gall-stones, Kidney-stones, Gravel, Kidney trouble, Lumbago and other diseases caused by uric acid in the system. It was a great victory for SANOL. So grateful was this lady that she sent a great number of her friends to us to be treated and in every one of these cases the results have been most satisfactory.

We are willing and anxious to supply the name of this well-known lady. We have also records of cures in every town and locality in Canada and we would be able to refer you to some of your neighbors for an opinion on SANOL.

This remedy is manufactured only by the SANOL MANUFACTURING COMPANY OF CANADA, LTD., 977 Main Street, Winnipeg. For sale by most leading druggists or direct from the makers at \$1.50 per bottle.

#### EDUCATION PAYS

Look about you and see how trained brains win better salaries than trained muscles. We train young men and women to use their brains in business. They succeed. Why not you? We invite you to write for a copy of our curriculum if you want a good training for a business office or wish to become a competent telegraph operator. Write W. H. Shaw, President, Shaw's Schools, Toronto, Canada.

#### Western Manufacture

Our west is bound to be a great manufacturing field. In the first place there is the certainty of an enormous consumptive demand of the very best class there. The population is increasing rapidly, the production of the land is also increasing, and the people have the means to sustain a large per capita demand for manufactured goods. In the second place the west has water power and coal, and its means of transportation enlarged so that raw material from any source can be delivered at the factories. When the Panama canal comes into use Canada's western market will be brought within the range of British manufacturers' competition, and as the manufacturers of the western states are always to be reckoned with there, Canadian manufacturers will require to be very alert to meet the conditions.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Ardent Suitor—I lay my fortune at your feet. Fair Lady—Your fortune! I didn't know you had one.

Ardent Suitor—Well, it isn't much of a fortune, but it will look large beside those tiny feet.

#### Dear Friends

Bell—That man over there is staring straight at my nose. Nell—Probably he's a reporter. Bell—And why should a reporter stare at my nose? Nell—Reporters are supposed to keep their eyes on everything that turns up, aren't they?

#### The Crab was Fierce

Restaurant Keeper—What, you can't pay your check? Out you go, then. Guest at the next table—Here, landlord, while you are about it, throw me out too.

I understand your wife is financially interested in your business.

Yes. A silent partner, I suppose.

Well—er—that's what she calls herself.

He (sententiously)—Men are what they eat. She (innocently)—Oh, are you so fond of calves' brains?

#### "PROUD AND GLAD"

Because Mother Looked So Well After Quoting Tea and Coffee

A woman was almost distracted with dyspepsia and heart trouble.

Like thousands of others, the drug—caffeine—in coffee was slowly but steadily undermining her nervous system and interfering with natural digestion of food. (Tea is just as injurious as coffee because it contains caffeine, the poisonous drug found in coffee).

For 30 years," she writes, "I have used coffee. Have always been sickly—had heart trouble and dyspepsia with ulcers in stomach and mouth so bad, sometimes, I was almost distracted and could hardly eat a thing for a week.

"I could not sleep for nervousness, and when I would lie down at night I'd belch up coffee and my heart would trouble me. It was like poison to me. I was thin—only weighed 125 lbs., when I quit coffee and began to use Postum.

"From the first day that belching and burning in my stomach stopped, I could sleep as soundly as anyone and after the first month, whenever I met any friends they would ask me what was making me so fleshy and looking so well.

"Sometimes, before I could answer quick enough, one of the children or my husband would say, 'Why, that is what Postum is doing for her'—they were all so proud and glad.

"When I recommend it to anyone I always tell them to follow directions in making Postum, as it is not good to taste if weak, but fine when it has the flavor and rich brown color."

Name given by Canadian Postum Co., Windsor, Ont.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

### Plea for Women Police

San Antonio (Texas)—Six of the wealthiest and most influential women of this city, leaders in society, philanthropic work and women's clubs, have petitioned the mayor and city council demanding that women be placed on the San Antonio police force.

The petitioners not only demand that women be numbered among the coppers, but they also have picked out beats for the proposed new police women.

In setting forth their reasons for desiring women police, the petitioners declare such a departure in police affairs is necessary in the interest of public morals and for the prevention of crime against the youth of both sexes.

The signers of the petition further aver that the demand is made after a careful study of existing conditions and observations of the necessity of women on the force.

Although the names of only six of the foremost women of San Antonio appear on the petition sent to the mayor and city council, the women themselves say they could get 10,000 signers if necessary.

### WHEN BABY IS ILL

When baby is ill—when he is troubled with constipation, colic, worms or cold; when his teeth are bothering him or when he is restless and cross and does not sleep well, give him Baby's Own Tablets. They are the mother's greatest aid in keeping her little ones well—thousands of mothers give their babies no other medicine because they knew the Tablets to be absolutely safe. They are guaranteed by a government analyst to be free from opiates and other harmful drugs found in so-called "soothing" mixtures. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### To Keep Screens From Rusting

Before putting screens away for the winter, give them a coat of kerosene. This will keep them from rusting. If they are treated in the same manner before being put up for the summer, you will have no trouble with mosquitoes, as this keeps away the tiny young insects, which are able to crawl in between the open spaces in the screens.

#### A Resourceful Scot

A Scottish tourist walking about the streets in Paris, some distance from the hotel, found he had taken a wrong turning, and to make things worse, he couldn't through ignorance of the language ask the way. Then a happy thought struck him. By dint of "signs" he concluded a bargain with a fruit hawker for a basket full of gooseberries, and then, to the amazement of everybody, went about shouting:

Fine Scotch goosebats! A penny a pun!

This went on for a while, till a fellow countryman rushed forward and asked:

Man, d'ye think ye're in the streets of Glasgow, that gang about like a madman crying goosebats? Ech! replied the hawker with a sense of relief, ye're just the man I was looking for. D'ye ken the way to the — hotel?

#### A Subtle Rebuke

He was a wealthy youth, blessed with plenty of money, and a great number of people were ready to take it away from him. He lived in San Francisco, which city, according to reliable report, is as full of speed and action after dark as Ty Cobb is when he steals home with a winning run. One night the young man, full of check books and ideas, hired a string of forty cabs and hacks, and forming them in single file, led the procession down Market Street, the principal thoroughfare of San Francisco. His walk was slow, grand, and impressive, and the vehicles followed him at a snail's pace. It looked like a funeral of a pet dog or a Mohammedan.

Suddenly a policeman ran out and put about his neck strong but unceasing fingers.

What are you trying to do? asked the officer of the law.

Why, said the leader of the procession solemnly, this town is dead and I'm burying it.

Whereupon they led him gently but quickly to the police station and showed him how to make a hole in his bank account.

#### A Misplaced "M"

Mrs. La Follette, wife of Senator Robert M. La Follette of Wisconsin, tells of a country newspaper which in reporting the speech of her celebrated husband, intending to add as comment, "And the masses believed him," said instead, "And them asses believed him."

Speaking of that fish you caught. What about it?

I notice you modify its size to your various listeners.

Well, I never tell a man more than I think he'll believe.

Senator Borah is one of the sanest of the Republican Progressives in the Senate. He is a man of great legal ability and loves a legal argument. Also, he is one of the great debaters in the Senate and one of the few members of that body who have not been bluffed out by the brawny Bailey.

He takes particular delight in clambering abroad that constitutional expert, heedless of his patronizing, his bullying or his sneers.

One of Borah's measures is a law providing for a bureau for children.

I assume, said the supercilious Bailey, that this bill of the Senator from Idaho is somewhat similar to that provision in the agricultural appropriation bill makes some sort of a similar arrangement for calves and pigs.

Exactly smiled Borah at the Texan. My bill seeks to have the government do for the children what it has already done for the calves and pigs. Whereupon Mr. Bailey sat down heavily and became lost in Jeffersonian thought.

### Another Verdict on New York

Soon after George Ade had put on his play "The Bad Samaritan," and had it swept off the boards by the condemnation of the critics and the disapproval of the theatregoing public, he hurled himself into a sleeping car and beat it back to his home in Indiana. As he stepped off the train one of his old farmer friends remarked:

George, I hear that your play failed in New York?

Yes, said Ade pleasantly, it failed, and I guess it must have been pretty bad.

That may be true, said the farmer, but what I don't understand is how in thunder New York ever found it out.

#### A Periodical Tippler

A doctor's patient in Excelsior Springs the other day was answering the usual list of queries prior to entering upon a course of treatment.

Are you steady, or a periodical drinker? asked the physician.

Periodical, was the reply.

The poor fellow studied a moment, that he might answer correctly, and replied:

About twenty minutes.

#### Well Trained

Hub (angrily)—What! More money? When I'm dead you'll probably have to beg for all the money you get.

Wife (calmly)—Well, I'll be better off than some poor women who never had any practice.

#### The Proven Asthma Remedy

Since asthma existed there has been no lack of much heralded remedies, but they have proved short lived and worthless. The ever-growing reputation of Dr. J. D. Kellogg's Asthma Remedy has given it a place in the field of medicine which no other can approach. It has never been pushed by sensational methods, but has simply gone on effecting relief and making new converts.

#### Joe's Automobiling Fun

Yes, remarked Farmer Hodge, my boy Joe gets a good deal o' fun out of motor cars. But he doesn't own a machine. Of course not. He's one of the constables.

Short of breath and angry with the motorist emerged from beneath his car and the helpful friend, who was presiding over the oil can, beamed upon him.

I've just oiled the cylinder, Shirkley old man, remarked the helpful friend, with a grin of pleasure on his countenance.

The motorist became angrier and shorter still of breath. His hand went to his head and he grew red with vexation. For a moment he battled with his temper.

Good heavens, he gurgled, eventually, that wasn't the cylinder it was my ear you were oiling.

### A Girl's Letter

Page One, of course, is just Page One. That fact is very plain. Page Two you see is numbered Three. Which greatly jars your brain. Page Three you find, is really Four. Page Four is Six, that's flat. What of Page Five? Why, sakes alive; You never do find that.

### "SOME HAV' MEAT, AND CANNA EAT"

So Bobby Burns tersely describes the rich, but still poor, dyspeptic. But their case is not now so desperate as when Burns wrote. For the man who has the food now can eat without suffering for it, if he just follows the meal with a Na-Dru-Co Dyspepsia Tablet.

These remarkable tablets banish the troubles of the chronic dyspeptic—the man who is bilious—the sufferer from heartburn, gas on the stomach or occasional indigestion. You can eat hearty meals of wholesome food—and digest them, too—if you take Na-Dru-Co Dyspepsia Tablets.

Compounded by expert chemists, after probably the best formula known to medical science, they are quick and certain in their action, giving prompt relief from all forms of stomach trouble, toning up and strengthening the digestive organs and bringing about permanent cures.

A man is no stronger than his stomach. Fit yourself for your best work by taking Na-Dru-Co Dyspepsia Tablets, 50c. at your druggist's. National Drug and Chemical Co. of Canada, Limited, Montreal.

**LION BRAND MAPLE BUTTER**  
All grocers 25c. lb. Tin

A woman's idea of a rival is another woman who tries to have better clothes than hers.

The Senate he was advised by his physician to give up smoking. The physician happened up at the Capitol one morning, when he dropped into the Mississippian's committee-room to say Howdy. As he entered he observed the Senator reared back in his chair, with his feet on the desk and a huge cigar in his mouth.

Here, Senator he said, I thought I told you to quit that?

Quit what? asked Mr. Mooney in mild surprise.

Why quit using tobacco. Tobacco? Why, my dear doctor, I am merely smoking a cigar Senator Beveridge gave me.

**EMPIRE NAVY PLUG CHEWING TOBACCO**  
The Captain.  
What the Captain Says:  
"When a man is in charge of a ship he has to keep calm under all conditions. Empire Navy Plug Chewing Tobacco is a great help."

Changes should reach this office not later than noon each Monday.

Call Office—Corner Gleichen Street and Fourth Avenue  
P.O. Box 13 Telephone No. 12  
W. PARK EVANS, Publisher and Proprietor.

Gleichen, Alberta, November 7, 1912

While other places are aiming to become railway hubs we fear Gleichen is neglecting natural opportunities and really needs to "buck up" and show the world her splendid opportunities in this direction.

A rubber stamp man struck town the other day and generously offered the CALL two rubber stamps for the use of our name as his agent in order to do the town out of a license fee and offered us a per centage after he had canvassed and got all he could. We preferred to see the town get the license, but would really like some of the young man's nerve.

The municipal elections are a few weeks distant but already some discontented ratepayers have interviewed the CALL asking for space in which to express their opinions on different matters. In view of this we may now remark that our columns will be open for all fair discussion of matters of general interest to the town and that in all cases the name of the writer must accompany the letter, whether for publication or not.

Since the article in the last Call pointing out the necessity of a customs office in Gleichen we have been informed that if this can be obtained one company that represents a manufacturing business will make this its headquarters. This company now has a good business in Canada, and is certain to become a very important one, but as considerable of the material used in manufacturing is at present imported it is essential that a customs office be situated at its headquarters. This is only one more reason why all should work for the establishment of a customs office that will supply the reasonable demands of the districts tributary to Gleichen.

### Town and City Planning Convention

There is to be a town and city Planning convention held in Edmonton on November 15th and 16th at which Gleichen should be represented as there will be many opportunities to learn the best manner in which to lay the foundations of this town out properly for the city it will eventually be, provided only that we now make the best use of our opportunities. Herein is a chance to learn how to prepare for a greater Gleichen and every true, enterprising, energetic man should be interested enough to see our representative is there, and that he is the right man.

Mayor George Armstrong of Edmonton, is the vice-president of the City Planning and Housing Association of Canada and it is through his initiative that the convention has been called.

Every city and town in Alberta has been invited to send delegates to the convention and large attendance is expected and particularly desired since the convention energies will be strongly directed toward securing legislation that will enable cities and towns to control the disposition of land and buildings in and about the several communities in such a manner as will lend itself to growth along good lines. Such legislation as this has been adopted by Nova Scotia and New Brunswick and, to some extent by Ontario. A bill looking toward a like end is now being prepared by the City Planning commission of Winnipeg and the Edmonton convention will take up its work with all of this as a guide.

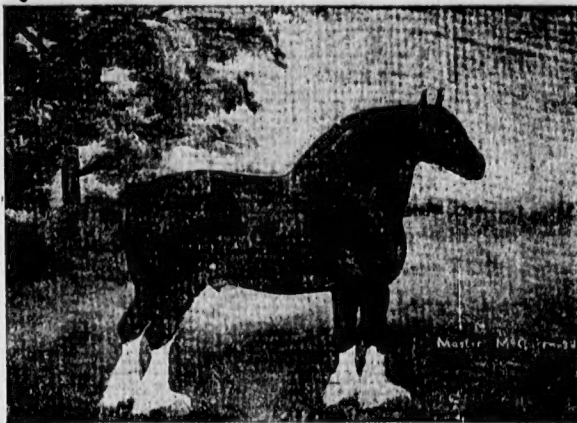

The proposition is an important one, particularly at a time when so many Alberta cities and towns are in a formative stage and where so much of future development along economical and thoroughly good lines depends upon what is done now.

A number of prominent men have been invited to address this convention, including Ex-Mayor W. Sanford Evans, of Winnipeg, president of the national association for city planning, Dr. A. J. Douglas, medical health officer of Winnipeg, Clifford T. Jones of Calgary, and others who have made considerable inquiry into the theories and the practices of city planning.

**The Thing To Hitch To**  
is reliability in having horse shoeing done as in all else—no make-believes or bluffs; but good, honest work. We are too great friends of the horse to turn out anything else than honest work—too good friends of yours to charge you more than is right.

Gleichen, - Alberta.

Master McQueen, One of Jas. Clark's Prize Winners

## Clark's Importation to Gleichen

Below is a brief description of the Clydesdales recently imported from Scotland by John Clark, sr., to Gleichen, the article is supplied direct from Scotland and will be read with interest:

During the past week there have been comparatively few shipments of Clydesdales for Canada. The only lot of note leaving was a consignment of one colt and five females for John Clark, Crowfoot, Alta. The colt is a nice stamp of a yearling by the handsome Carisky (13401), a highly successful son of the four times champion Hiawatha (10067) out of a mare by the big quality horse Gallant Prince (10552). This is an upstanding good-sized colt with plenty of wide wearing bone and the best of feet, and he is a true straight mover. Along with him there goes a couple of yearling fillies, the whole of them being supplied by W. McLatchie, Bellfield, Campbelltown. One of the fillies is by Carisky out of a mare by the weighty, good horse Ben Cruachan (10504) and the other one is a daughter of Sir Simon (10165), one of the most successful sons of the great Sir Everard (5353), the sire of the world-famous Baron's Pride (9122), her dam being by the prize horse Superb (9033), an animal which bred a lot of good ones in his time. Like most Kintyre stock these are good-sized fillies with lots of quality about them and they are like growing into first class brood mares. Three other fillies have been bought from Alex Graham, Campbelltown. All are two year olds, and got by the noted Silver Cup (11184) which gained premier honors at the shows of the Royal Agricultural Society of England and the Highland and Agricultural Society of Scotland, and was subsequently sold at public auction for \$5,250. One of the fillies is out of a mare by Sir Hugo (10924), the noted son of Sir Everard (5353), which did so much to maintain the good name of his sire as stud horse at Park Mains during the lifetime of the lamented Willie Taylor. Another is from a dam by that great sire of draught animal, Carthusian (9722), and the third one is out of a dam by Sir Ronald with grand-dam by the noted Highland and Agricultural Society prize horse Rosedale (8194). These too are fillies which are sure to be greatly thought of in Alberta or wherever they go.

## DANES IN CANADA

Vice Consul at Ottawa a Great Factor  
in Bringing Out Fine Settlers

Perhaps the only Danish family in  
Canada that can boast of being repre-  
sented by four generations residing  
in the same locality, is that of Vice-  
Consul Meyer, of Ottawa. The eldest,  
Mrs. Anne Jorgensen, is still hale and  
 hearty; then come her son, Carl Con-  
rad Meyer; her grand-son, C. Robert  
Meyer, and her great-granddaughter  
Baby Anne Meyer.

Mr. Meyer is one of the most dis-  
tinguished Danes in this country.  
Ever since coming to Canada in 1886  
he resided in Ottawa, where from  
comparative poverty he rose into the  
highest of respectability and nation-  
wide esteem. Physically the consul  
is a typical Scandinavian.

Besides his diplomatic duties, Mr.  
Meyer is proprietor and editor of The  
Danebrog, a weekly paper that he  
established in 1893. Through this  
medium he has been responsible for  
bringing many thousands of Danish  
immigrants into the northwestern  
provinces of Canada where, as agricul-  
turalists, they have prospered splendidly.

"I am a British subject," said the  
consul in an interview, "and a great  
believer in the naturalization of all  
who come to this country to make  
their living. There were very few  
Danes here when I came out and Ot-  
tawa had only 25,000 inhabitants, but  
I stuck to the ship, did all that I  
could for the benefit of my people,  
and I feel that I have pretty good  
results to show for it."

### TRIBUTE TO SOBRIETY

Liquor Man From Antipodes Says  
Canadians Most Sober in World

"The Canadian People are the most  
sober in the world."

This was the opinion expressed by  
Mr. W. A. Lloyd, the official lecturer  
of the Liquor Trades Defence Union  
of New South Wales, and secretary  
of the Liquor Trades Defence Asso-  
ciation of Western Australia, after  
travelling through the Dominion while  
on a tour of the world to study the  
liquor question.

"I visited South Africa and all parts  
of Great Britain," said Mr. Lloyd,  
"with the object of making a first-  
hand, systematic study of the liquor  
laws of the Empire; I visited the  
Continent of Europe also, and must  
confess Canada appears to me to be  
the most truly temperate part of the  
Empire. I am not prepared to say  
that your restrictive legislation, as  
applied to the liquor traffic, is res-  
ponsible for this eminently desirable  
condition of affairs, but whatever the  
cause, Canada is to be congratulated  
on the sobriety of its people. I think  
that those countries, such as France,  
which encourage the drinking of light  
wines and low fermentation malt  
liquors, have done more to solve the  
liquor problem than any other coun-  
tries."

FRANZ MENSCHIK  
brother of Mrs. Rosa Szabo. He  
journeyed from his home in Austria  
to New York to assist of the prose-  
cution of Burton W. Gibson, the  
lawyer who is said to have mur-  
dered Mrs. Szabo.

### BURIED TOO QUICKLY

Montreal's Health Officer Confident  
Many Tragedies Occur as a Result

That many people are buried alive  
in Montreal was the belief expressed  
by Dr. Louis Laberge, Medical Health  
Officer. This, he claimed, was be-  
cause of the habit of quick burials.  
Many people are interred inside of  
twenty-four hours after they are pro-  
nounced dead, and there is no means  
of knowing whether or not they are  
in a state of lethargy.

He called attention to a case in  
point in Winnipeg and advocated that  
a law be passed to force the relatives  
of the deceased to wait until all pos-  
sibility of the supposed dead person  
being alive is past.

### The Bluejacket's Kerchief

It is not generally known that the  
bluejacket's black neckerchief, a sur-  
vival of the service mourning for Nel-  
son, is the best British silk obtain-  
able, and that the Admiralty is a  
very fastidious customer. Two per-  
man are issued annually, and many  
thousands of these discarded scarfs  
are subsequently worn by Jack's  
femininity. A pair of them make an  
excellent blouse.

### Bagged a Bull Moose

A remarkable feat was accomplish-  
ed in the woods some twenty miles  
north of Quebec by Miss Langelier,  
daughter of the Lieutenant-Governor  
of the province. The young lady, only  
eighteen and just out of the convent,  
shot and killed a magnificent bull  
moose while on hunting trip with  
a party organized by Mr. Gustave  
Langelier, her cousin.

## Charmed At the Price.

The price tag fools the best of us;  
Cigars that for a nickel go  
We pass with scorn but smoke with  
joy  
If they are in the ten cent row.  
A straw hat marked at fifty cents  
Would hardly seem a fit;  
The same one priced three ninety-eight  
We see and make a dive for it.

We see a picture on the wall  
That to our eyes appears to be  
A ten-cent chromo, or perhaps  
A work of art that came with tea.  
But when the owner comes and says  
He paid a thousand for that bit  
And thinks he got it cheap at that,  
Then we sit up and notice it.

We see a rooster strutting round  
With pride that seems almost ab-  
surd,

He has some feathers and a tail,  
And seems like any other bird.  
He looks to be a common scrub  
Until we get his pedigree,  
And find he captures every prize.  
And then his beauty we can see.

That is the way with everything.  
From marbles to a cake of ice.  
We may be experts in the line,  
But still we judge it by the price.  
Were it a diamond in the rough  
And worth a fortune any time,  
We wouldn't give it storage room  
If it were listed for a dime.

- Nashville American

## Legumes And Crop Rotation

Legumes such as clovers, vetches,  
beans and peas are excellent build-  
ers of soil fertility. Those of great-  
est importance, perhaps, are the  
clovers. The value of clover on the  
farm makes it desirable that a part  
of the area of the farm be at all  
times sowed to this crop. The  
possibility of obtaining a grain crop  
during the season when the clover  
is making its early growth, makes  
the utilization of this legum in  
maintaining soil fertility a thor-  
oughly practicable one, not calling  
for an undue amount of special  
preparation, or of fertilizers to  
maintain successful stands on the  
ordinary farm. If the land be in a  
somewhat depleted condition as  
regards fertility, a 3-year rotation  
may be best although on better soils  
a 4-year or 5-year rotation may be  
quite practicable. The length of  
the system and the crops grown in  
the rotation will depend on the  
branch of farming specialized in;  
the kind of soil, etc.

No hard and fast rules can be  
laid down as to what crops to grow.  
Different soils are adapted to differ-  
ent crops, and with the principals  
of systematic rotation in mind  
must be studied to find out the  
crops most suitable for them. When  
the land was newly broken prairie,  
the cultivator was not so much per-  
plexed as now, by baked soil after  
rains, dried out soil after dry  
weather, or by blowing soils. It  
was full of vegetable decay, was  
mellow to cultivate, did not bake  
or wash, and retained moisture  
during dry spells. These difficulties  
have resulted from constant culti-  
vation, and in any system of im-  
provement, we must make an effort  
to get back to the former new  
ground conditions. For this pur-  
pose, the legumes are the most  
efficient aid we can have. It would  
be easy to keep up these conditions  
if all farmers had an abundance of  
barnyard and stable manure each  
year, which is good humus form-  
ing material, the value of which  
cannot be gainsaid.

### Clover a Cheap Substitute for Manure

Clover is a cheap substitute for  
the vegetable matter in the manure.  
Even when the crop is sowed for  
orange, there will be a very con-  
siderable amount of the humus-  
making material left in the roots,  
as well as a goodly amount of the  
nitrogen which the roots have as-  
similated.

### How Legumes Act on the Soil

The legumes have the power of  
fixation of free nitrogen gas from  
the air by bacteria within the  
nodules on their roots. This nitro-  
gen is in a readily available form to  
be used by crops following. It must  
not be understood, however, that

the growing of legumes and remov-  
ing them from the land will per-  
manently maintain the nitrogen  
supply. About two-thirds of the  
nitrogen contained in the clover  
plant is in the tops and when the  
hay crop is removed this is lost to  
the soil.

The peculiar value of legumes as  
forage and hay-making crops lies in  
the fact that they have far more  
protein than the more carbonaceous  
grasses, hence they make a more  
complete ration for stock. It is  
becoming more and more evident  
that the farmer of the future must  
be a legume farmer.

## Weeds Poison Crops

It has been generally supposed  
that the principal effect upon the  
soil, of weeds in the growing crops,  
was that they took away moisture  
and plant food that should go to  
the crops. Recent investigation at  
Cornell University has demon-  
strated that they have a deleterious  
effect upon crops in that they  
poison the plants by the inter-  
mingling of their roots. Corn and  
weeds were allowed to grow side by  
side in similar soil but with parti-  
tions placed so that the roots were  
kept apart. The corn and weeds  
grew normally. In another box the  
corn and weeds were placed so that  
roots could intermingle, with the  
result that the corn was stunted  
and its growth materially retarded.

It is a case of incompatibility of  
association.

# A B. C. INVEST- MENT IS O K

## ONE DOLLAR DOWN AND ONE DOLLAR PER WEEK

For five years pays for an improved fruit tract in B. C. At the end of the five years it should bring you in \$500 to \$1,500 per year.

Actual Government Reports for the Kootenay Lake District show greater results from ONE ACRE

There is hardly a man, woman or child in the United States or Canada who cannot afford One Dollar Per Week to establish a home in an ideal country like the famous Kootenay Lake District. In five years a clear title to one acre of improved bearing orchard is delivered to you or your heirs.

I have set aside five hundred acres of choice fruit land, and as soon as I have sold that out your opportunity is lost. I want every man, woman or child who reads this ad to send in their dollar at once and secure an acre tract on the above terms. Write for full particulars of the best offer ever made to those who wish a home in an ideal climate, where you will have honest and congenial neighbors.

I sell five, ten and twenty acre tracts on very easy monthly payments. Also give a big discount for cash. Join one of my monthly excursions and see the country for yourself. I have sold to several hundred people since January 1st. I live there myself. Have my own fruit ranch on the shores of the beautiful Kootenay Lake. I want you for my neighbor in B. C., and I am sure you will want to be when you see the country. My new way to grow apples will interest you. Also the famous Kootenay Magazine tells all about the fruit and other industries of Southern B. C. Subscription price \$2.50 per year, or sent free for a year on receipt of twenty names of friends or relatives who might be interested in B. C. fruit lands. My booklet, "Home-seeking," tells you how I spent five years in the West looking for what we all want—an ideal location for a home. It's free.

Write today, giving name of reliable reference, your nationality, and amount you wish to buy.

**F. L. HARRIS**

## PRINCE'S UNIQUE HONOR

Prince Arthur of Connaught, who represented King George at the funeral of the Emperor of Japan, met with a unique honor at the hands of his late Majesty when he visited the Island Empire in 1906, to invest the Emperor with the Order of the Garter. After the investiture the Emperor received Prince Arthur in private, and drew from a lacquer box the ribbon and star of the Order of the Chrysanthemum, and with his own hands placed the ribbon over the Prince's shoulder and pinned the star on his breast. The Order is the highest in the Empire, but this is the only instance on record of the Emperor bestowing personally to invest the recipient.

R. S. COURLAY  
of Toronto, who was elected President of the Canadian Manufacturers' Association.

## RICH WIRGIN AREA

Coal and Iron in Huge Quantities One of British Columbia's Assets

With the construction of the big bridge over Seymour Narrows, connecting the Campbell River section of Vancouver Island with the mainland of British Columbia, an area of great mineral wealth will be made more accessible. The coal deposits are very extensive; in fact, they are said to be almost inexhaustible. Up near the head of the Quinsan river, an affluent of the Campbell, there is a very extensive deposit of iron ore. What other minerals remain to be discovered in the mountain slopes, which flank this great timbered area, can only surmise, but no one can really speak with certainty; but the coal and iron are of themselves sufficient to support a large industrial community.

As a timber country, the region seems to be unsurpassable. There are tens of thousands of acres upon whose soil the sun's rays have not fallen for centuries, because of the stately canopy of verdure, which the firs, the spruces, the hemlocks and the cedars support with their lofty, columnar trunks. About two million feet of lumber per day is being cut yet the forest wealth shows no sign of diminution to the casual observer. One of the most important and difficult problems presented for consideration is the use to which the saved off acres shall be put. Some of them will, doubtless, be reforested. Much excellent pastureage can be had even where many of the large stumps are left.

## A MONKEY GHOST

Terrifying Appearance of Little Creature to Unsuspecting Chinaman

A small monkey which escaped from its quarters in the Medical Building of McGill University, Montreal, managed to fall into a pail of white paint, and having accentuated his ugliness and his weird appearance to an extent difficult to describe, he appeared ghost-like in the path of a Chinese laundryman. Screaming with terror the Chinaman started down the street at full speed, people rushed to the doors, and in the excitement a fire alarm was sent in, which brought the engines to the scene. When the hubbub abated, the little animal was recaptured, more frightened, probably, than the Chinaman.

## Heater for Motor Cars

A new device for heating automobiles in winter consists of a brass cylinder which runs from the radiator of the machine to the limousine or body of the car, covering the cylinder heads. The fan blows the air through this tube, in which it is heated by the excess heat liberated from the cylinder heads and manifold. The air is forced back into the body of the car, where a valve regulates the amount of heat desired. In summer time he hot air escapes under the car. This device has a tendency to cool the engine and keep the paint and varnish from cracking.

## One General Wedding Day

In a certain district of Brittany, France, where the greater part of the population consists of fishermen who are away for many months of the year, they have a strange custom with regard to weddings. All the weddings in this district take place on one fixed day. This annual wedding day is made an occasion for a general celebration by the inhabitants of the district, who feast the young couples with the greatest hospitality.

## Best up Traveller

Joseph J. Gawley, a travelling salesman residing in Windsor, was set upon by five men and terribly beaten in Detroit, near the plant of the Michigan Steel Castings Company, having been mistaken for a strike-breaker.

## He Scored

Brown and Smith were two rival butchers. Each tried to score off the other. Brown put up a notice in his shop window: "Best sausages—only 10 cents per pound." Smith immediately proclaimed: "Best sausages—only 9 cents per pound." The first purveyor of meat determined not to be outwitted by his cunning rival, so put up a notice which ran: "Best sausages—only 8 cents per pound. Sold to the King." In hopes of thus outdoing his rival. But he was mistaken, for the next day there appeared in Smith's window the words: "God save the King."

Knick—is your wife ever out of temper?  
Bunk—No, indeed, she's always got plenty of it.

## Legal Title

Banks—Say, do you think you own this house?  
Banks—Not eggshackly, but I got a lean on it.

## Its Only Purpose

"Oh, Willie, Willie," cried the Sunday-school teacher to a hopelessly dull pupil; "whatever do you think your head is for?"  
"Please, Miss," he replied at length, "to keep my collar on."

## Utilization of Flax Fibre in Canada.

During a recent visit to Ottawa, Mr. W. J. Robinson, a British subject resident of Chicago, and an authority on the growth and manipulation of flax, was good enough to furnish this office for publication in the Census and Statistics Monthly with a statement respecting a newly discovered process, which it is claimed, renders possible the utilization of the flax straw now annually wasted and the establishment in Canada of an important linen manufacturing industry.

"The only obstacle," Mr. Robinson said, "in the way of producing good spinning and weaving fibre from the flax grown in Canada and the United States for seed alone lies in properly retting the flax, in order to get away from the deleterious gums, which make it impossible for use by the cordage and linen manufacturer. Many attempts have been made at different periods of history to accomplish this result by other than the water or dew retting methods in use; but every succeeding attempt has proved more discouraging than the last. It has remained for a prominent American chemist, viz., Dr. R. R. Roberts, of Washington, D.C., who has devoted over 30 years of his life to the solution of this problem, to invent a simple chemical process and one that is reasonably inexpensive, by which the flax straw grown in Canada can be converted into a commercially spinnable and wearable fibre, and by which is put within the pale of certainty the development of the linen business in Canada and the United States. The time consumed under the water or dew retting process varies from ten days to several weeks according to temperature and weather conditions, and frequently the entire crop is lost; but this chemical retting process does the entire work in a little less than five hours and is under such control that it is impossible for the flax fibre to suffer during its manipulation.

"The process has been under investigation for two years at enormous outlay by some of the most prominent financial and business interests in the United States. The fibre has been shipped to Ireland and spun into yarns and woven into cloth with the result that Irish spinners have pronounced this fibre produced from Canadian flax grown in the province of Ontario to be as good as the best Russian flax that they have been able to obtain and to be capable of being manufactured into table linens, napkins, towels, dress goods, underwear, and all the forms of linen textile and cordage. They are not only anxious to have the fibre shipped to Europe for use there, but are looking to Canada to find locations for linen mills where they can come out and found an industry which is probably more important from an agricultural and commercial standpoint than any other industry which could come to this country. Canada is absolutely dependent upon the few southern States which grow cotton for all its vegetable fibre textiles, and the inauguration of this industry would make it possible for linen mills to spring up all over the Dominion and bring to Canada a type of immigration from the north of Ireland and from Scotland which the country has never been able to obtain before, because the people who have been trained in the linen business and knowing nothing else were afraid to come to Canada where the industry to which they had been trained from their youth was not known.

"Canada in 1911 grew 1,500,000 tons of flax straw, which straw, under manipulation, would have given 300,000 tons of commercially spinnable flax fibre. This fibre at Canadian prices would have yielded the last year \$60,000,000 in Canadian exports. The seed alone on the flax grown yielded only \$11,855,000 while the entire value of rye, peas, buckwheat, mixed grains and flax in 1911 was only \$33,945,000.

"It is hoped that the government

will make a close investigation into these statements and figures and try to obtain for Canada the results possible under the inauguration of a flax and linen industry in the Dominion which would affect every part of the country, because, as has been proved, flax for seed and fibre can be grown in every part of the Dominion of Canada that has been broken to agriculture from the Atlantic to the Pacific."—Census and Statistics Monthly.

## Begin to Dance In the Afternoon

The latest from Paris says: A complete revolution in old methods of entertaining is announced for the coming season of chateau life through the complaints of society women that they do not get their beauty sleep if they follow the whirlwind fashion and are present at all the functions.

The change will begin with afternoon dances at country homes as it has been found that under the old system with a ball beginning at 10 or 11 in the evening and finishing after a supper in the small hours in the morning, the guests, especially those whose chateaus are some distance from the host's, do not get to bed early enough, often not reaching home in their motor cars before breakfast time. Accordingly the fashion has now set in to have dances start at 3 in the afternoon, and to end, including a cotillon about 8 o'clock.

This innovation has given rise to important changes in dress, which are found to add greatly to the charm of the idea. Women's hats for instance are not removed. The favorite gown on these occasions is a soft sapphire blue or dark velvet, trimmed with lace, which, it is said, will be replaced by small bands of fur later in the winter. The sleeves are worn very short, resembling the eighteenth century styles.

It is expected that if the fashion of these afternoon dances continues the coiffures of the Marie Antoinette period may come to harmonize with the general effect.

A B. C. Investment is all right, see ad. of F. L. Harris in this issue.

## To Defeat Winter Ills

### START NOW

Susceptibility to colds, sore throats, tonsillitis and such, indicate impoverished vitality—lack of reserve strength to weather changing seasons.

Aspoonful of **SCOTT'S EMULSION** after each meal starts healthy body-action like a small match kindles a great fire—and more: it makes rich, healthy, active blood—fortifies the tissues and stimulates the appetite—it makes sound body-strength.

**SCOTT'S EMULSION** is the purest cod liver oil, made cream-like and palatable without alcohol or drug—the quintessence of purity.

Reject imitations they are impostors for profit.

Scott & Bowne, Toronto, Ontario 12-54

### Fully Qualified

Merchant (about to engage a travel agent)—What were you in for?  
Traveller—It was for thrashing a party who would not give me an order.  
Merchant—You are engaged.

Suspicious Tailor—There, just stand in that position, and please look straight at the notice while I take your measure.  
Customer reads the notice:—Terms cash.

Minard's Liniment Cures Colds, &c.

A man went to an insurance office to have his life insured the other day. Do you cycle? the insurance agent asked.

No.  
Do you motor?  
No.  
Do you then, perhaps, fly?  
No, no, said the applicant laughing. I have no dangerous—  
But the agent interrupted him curtly.

Sorry sir, he said, but we no longer insure pedestrians.

Doctors do not believe in advertising, but it is noticed by the Roosevelt and other cases that they all sign bulletins with their full names whenever they get a chance to do so.

Attacks of cholera and dysentery come quickly, there seldom being any warning of the visit. Remedial action must be taken just as quickly if the patient is to be spared great suffering and permanent injury to the lining membranes of the bowels. The readiest preparation for the purpose is Dr. J. D. Kellogg's Dysentery Cordial. It can be got at small cost at any drug store or general dealer's, and it will afford relief before a doctor can be called.

### Explanation

Do you mean to say such a physical wreck as he gave you that black eye? asked the magistrate.  
Sure, your honor, he wasn't a physical wreck till after he gave me the black eye, replied the complaining wife.

## WOMAN'S MOST SUCCESSFUL MEDICINE

Known All Over The World—Known Only For The Good It Has Done.

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.

Fox Creek, N. B.—"I have always had pains in the abdomen and a weakness there and often after meals a soreness in my stomach.

Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better and I can work with ambition. I have encouraged many mothers of families to take it as it is the best remedy in the world. You can publish this in the papers."—Mrs. WILLIAM S. BOURQUE, Fox Creek, N. B.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of whom state that it has saved them from surgical operations.

### Accelerating Brain Activity

In the early days of Wisconsin, two of the most prominent lawyers of the State were George B. Smith and I. S. Sloan, the latter of whom had a habit of injecting into his remarks to the court the expression, Your honor, I have an idea. A certain case had been dragging along through a hot summer day when Sloan sprang to his feet, with his old remark: Your honor, I have an idea.

Smith immediately bounded up, assumed an impressive attitude and in great solemnity said:

May it please the court, I move that a writ of habeas corpus be issued by this court immediately to take the learned gentleman's idea out of solitary confinement.

### Advice From an Expert

George Washington Johnson stood before an avenging judge, and realized that all the evidence was against him. It was the same old charge. But, said the judge, with a perplexed frown, I don't understand, Johnson, how was it possible for you to steal those chickens when they were roosting right under the owner's window and there were two vicious bulldogs in the yard.

It wouldn't do you no good, fudge, for me to explain how I caught 'em, replied the successful culprit. You couldn't do it if you tried it forty times, an' you might get a hide full of buckshot de ve'y first time you put your laig ober de fence. De best way for you to do is to buy your chickens in de market.

Mr. Herbert Samuel, the Postmaster-General, is considering the advisability of issuing ready reckoners for post office clerks.

A Pleasant Purgative.—Purlee's Vegetable Pills are so compounded as to operate on both the stomach and the bowels, so that they act along the whole alimentary and excretory passage. They are not drastic in their work, but mildly purgative, and the pleasure of taking them is only equalled by the gratifying effect they produce. Compounded only of vegetable substances the curative qualities of which were fully tested, they afford relief without chance of injury.

### Used to Degrees

Police Captain—I gave him the third degree, and he never flinched.  
Detective—No wonder. He belongs to about ten fraternal organizations.

The British public spend \$12,000,000 a year on patent medicines, from which the Government draws a revenue in duty of over \$1,500,000.

## TAKEN HOME ON A MATTRESS

How A Sufferer From Sciatica Found Permanent Relief.

Fierce darting pains, pains like red hot needles being driven through the flesh in the thigh, perhaps down the leg to the ankles—that's sciatica. None but the victim can realize the torture of this trouble, and many suffer from it hopelessly in the belief that it cannot be cured. This is a mistake; sciatica is a nerve trouble, and if the starved nerves are properly nourished with rich, red blood the trouble will soon disappear. Dr. Williams' Pink Pills make just the new, pure blood needed to feed the sciatica nerve and drive out the racking pain. It has been proved over and over again that they can do this and we offer now the following additional piece of evidence. Mr. E. H. Pastorious, Harrow, Ont., says: "Some years ago I was terribly afflicted with sciatica, starting just in my hip and then extending through the leg to the foot. At the time I was attacked I was away from home and had to be brought home on a mattress in a spring wagon, and the agony of the trip was almost more than I could endure. Reaching home I was not able to sit up and remained in bed for six weeks. The doctor did not help me and I tried a number of medicines recommended by neighbors. I paid \$5.00 a bottle for one preparation, but it was no better than the rest, and I began to think there was no cure for me. While suffering this untold misery Dr. Williams' Pink Pills were recommended, and my wife got me a supply. In the course of a few weeks I began to feel better and could get around with the aid of a cane. I kept on taking the Pills until all the pain disappeared and I felt as well as ever I did. I have never had an attack of the trouble since, and although I am now 65 years of age I feel as vigorous as I did at 40, all of which I ascribe to Dr. Williams' Pink Pills."

If you are suffering from sciatica or any nerve or blood trouble, begin to cure yourself to-day by the use of Dr. Williams' Pink Pills, which will assuredly do for you what they have done for others, if you give them a fair trial. Sold by all medicine dealers or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

They were in the unique section of the art museum and were gazing at a mummy swathed in its cloth. Auto or aeroplane accident, evidently, one man remarked. Guess it's the former, returned his companion, for see, there's the auto number, and he pointed to a card reading B.C., 87.

### An Irish Compliment

He was an Irishman, and he had red hair and broad shoulders. Moreover, one glance at him gave you the impression that, as a nifty infidel in the whisky game, he had hung up a record for accepting all chances. A policeman, laying a heavy hand on one of the broad shoulders, began to make a few remarks about the necessity of a journey to the police court. I don't care, said the Irishman, whether you take me before that judge or not. He's an old fool. That's all he is.

Do you really think he's a fool, asked the officer.  
I think he's a fool, replied the prisoner, but I wouldn't like to take the chance of his feeling that way when you get me before him.

### Cooking the Baltic Egg

In his hot letter to the King of Montenegro, Baron d'Estourelles de Constant accuses him of setting the world afire to cook his egg, for a second time. There is force in the borrowed figure. Montenegro can hardly furnish more than 50,000 troops by robbing the cradle and the grave, and a force so small cannot make much of a war. Far otherwise will it be if Serbia, Greece and Bulgaria take the field with ten times as many men.

You're a fine little fellow, said the new pastor to the 6 year old son of his parishioner, at whose house he had arrived for tea. Won't you shake hands and let's get acquainted?  
None, said the fine little fellow. Won't neither.

Why, asked the minister, have I done anything to displease you?  
Yep, was the impolite response. Had to have my face an' hands washed just because you was comin'.

A well-known physician was examining a class of nurses. He described the condition of a patient and asked one nurse how much morphine in her opinion should be administered to the sufferer.

Eight grains, promptly replied the nurse. The doctor made no comment, and the girl passed on.

When her turn came again she appeared greatly confused and said to the examiner: Doctor, I wish to correct the answer I made the last time. I meant to say that one-eighth of a grain should be given to the patient.

Too late, remarked the physician without looking up from his question paper. The man is dead.

Oh, John, sobbed Mrs. John. I've done something awful, and I'm almost afraid to tell you but I must! I made a most awful mistake this morning and sent your new dress suit to the rummage sale instead of your old one, and when I found out what I had done and ran over to get it back it had been sold.

That's all right, Mabel, dear, said John amiably. I stopped in at the sale myself and bought it back for 35 cents.

Apple trees in full bloom and raspberry canes bearing fruit for the second time this season may be seen at Pointon, Lincolnshire.

The Bank of Sweden is introducing a system of washing old bank notes and then putting them through a chemical process, as this is cheaper than making new ones.

### No Raw Ones for Her

Rose Pastor Phelps Stokes was talking in New York about the untold good that had been accomplished during the summer by the various country week associations.

And how quaint, she said, were the comments of all those little slum urchins before the wonders of the country.

I once led a little East Side girl into a peach orchard, and, picking up a glorious peach from the grass, I handed it to her.

Eat it, I said. You'll find it delicious. But she frowned and shook her head.

No, she said, haughtily. Oh, no, I never touch 'em till they're canned.

President Hadley of Yale was telling that it is a better thing to have written examinations of students instead of the oral ones, which were the rule of some years ago. He illustrated it thus:

Two gentlemen who were playing cards at a club recently were much annoyed by other members who stood behind their chairs and interested themselves in the game. Finally one of the players asked a spectator to play the hand for him until he returned.

The spectator took the cards, whereupon the first player left the room. Pretty soon the second player followed the example of the first. The two substitutes played for some time, when one of them asked the waiter whether the two original players were.

They are playing cards in the next room, sir, was the waiter's reply.

How are you passing your vacation? In an ideal way. I'm pleased nearly all the time.

That is rare. What is your method?

I spend two days in the country, then I'm glad to get back to the city. I spend two days in the city, then I'm glad to get back to the country. It's a great scheme.

### Inadvertent Humor of Signs

Long before Dickens turned the limelight upon the Tooley Street sign, Carpenter, cleaned, advice given, furniture moved, and poetry written on any subject, the study of a city's signs has interested the strolling stranger, remarked a stopover tourist from the West.

How suggestive that sign of a couple of ice dealers we saw this morning in Georgetown, "Cool and High." And the versatility of his race was exhibited by an Indian in a sign over his shop on Ninth street, near the public library: Wood, Spagetti, Caviar and Olive Oil—all the Italian curiosity.

You see da sign, was the Delphic response; I don't know now whether he had any or not.

As we neared the wharf, bound for Mount Vernon, my wife pointed to a great roof sign, over a large supply house: "Iron sinks; Wood floats." Humph, she sneered contemptuously, we didn't have to come all the way from Indiana to find that out.

A novel adaptation of the automatic machine has been installed at one of the London railway stations. It is intended for people who make the station a rendezvous and run the risk of missing their friends. A penny placed in the machine brings a card and a pencil, and the message written, it is placed in the frame of the machine, and exhibited for three hours. The man who cannot keep his appointment is thus given a chance of making matters right with the other party to the arrangement.

Here, began a woman known to a writer in the Canadian Courier, here's an article in the evening paper on Women's Work for the Feeble Minded.

Her husband grunted—being in a reactionary mood. I'd like to know, he said, what women have ever done for the feeble-minded?

They usually marry them, dear, replied his wife, sweetly.

### Eve a Ready-Made

There are three kinds of housekeepers, the homemade, the ready-made and the made to order. Of these the ready-mades are the most numerous, but the made to order are the most important. The homemades have existed for centuries, although not always. Eve was not a homemaker. She was a ready-made. Her first home in the garden was without tradition, precedent or a mother in law. In it Eve toiled not neither did she spit, and there is not the faintest suggestion that she ever offered anything but raw food to Adam. It is the made to order, or trained housekeeper, who can best meet living conditions to day.

### We believe MINARD'S LINIMENT

is the best:  
Mathias Fol y, O' City, Ont.  
Joseph Snow, Norway, Me.  
Charles Whooten, Mulgrave, N.S.  
Rev. R. O. Armstrong, Mulgrave, N.S.  
Pierre Landers, senr., Pokemouche, N.B.  
Thomas Wasson, Sheffield, N.B.

### Amateur Theatricals

Heroiné—You say you don't think the persons in the back of the audience can hear us?

Professional Coach—No, but don't let that worry you. They can hear the prompter distinctly; so they won't lose touch with the play.

An English tourist, who was telling an Irish peasant about the immense size of the British Empire, said:

Well, Pat, and do you know that the sun never sets on the King's domains?

No, your honor, replied Pat. Well, such is the case, went on the tourist. But do you know the reason why?

Pat immediately answered: I suppose it is because Heaven is afraid to trust an Englishman in the dark.

### Weak Kidneys Don't Cure Themselves

They need such help as Nature provides. An excellent aid to impaired kidneys is sweet nitre. It is one of the curative agents in Dr. CLARK'S SWEET NITRE PILLS and is helped in its work by five other splendid medicines. Take DR. CLARK'S SWEET NITRE PILLS at once when you have lame back, pains in the joints, spots before the eyes, frequent headaches, etc. They help you to health and keep you well. Sold everywhere at fifty cents a box or mailed direct by

Dr. Clark's Sweet Nitre PILLS

When You Buy Matches, Ask for

**EDDY'S Red Bird**

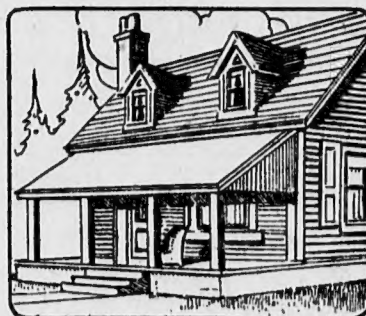

They have a true safety base head, with silent tip. Will never explode if Stepped on.

Eddy's Matches have satisfied Canadians since 1851—accept no others.

The E. B. Eddy Company, Hull, Canada

INSIST ON GETTING "EDDY'S"

Washboards, Wood Pails and Tubs, Fibre Pails and Tubs.

Instead of "patching up" your house, repair for good with concrete

A FEW bags of "Canada" cement, some stone and sand and water, mixed and placed where needed, will make an old house look like new. What is more important, the improvements—be they porch floor, foundations, steps, chimney-caps, or column-bases—are made to last. Time, wear and weather have no effect upon concrete, except to make it stronger.

Even if you have never used concrete, you can quickly learn how from our 160-page book, "What the Farmer can do with Concrete"

Which we will send to you free upon request. It will show you how to build a concrete porch as well as how to use concrete for scores of other purposes around the home and on the farm.

Write for it to-day. It is absolutely free.

When you buy cement, be sure it's "Canada" cement. Then you can be certain of satisfaction.

Address  
**Canada Cement Company Limited**  
514 Herald Building, Montreal

OUR Free Information Department will answer any questions on the use of cement without obligating you in any way.

## POWERS ARE NERVOUS

EUROPEAN SITUATION CREATES A NERVOUS TENSION

A Congratulatory Telegram is Sent by Czar of Russia to Serbia on Success of War—Taken as a Warning to Germany and Austria by the Triple Entente.

London.—In the present nervous tension resulting in the general European situation, extreme importance attaches to a telegram which the Czar of Russia sent to King Peter of Serbia congratulating him that the Serbian armies had been successful in Macedonia without the need of invoking assistance from the outside. No information has come as to the effect which this telegram, which was only made public at a late hour, has created in Vienna, but it may reasonably be surmised that it will be regarded as a most unpleasant and alarming demonstration. One has only to remember that but for German threats Russia would have mobilized against Austria when the latter executed her Bosnia Herzegovina coup.

Serbia's territorial ambitions, now almost openly avowed are chief danger points in the relation of the great power. Austria will not tolerate a change in the status quo; Russia, by the Czar's telegram congratulating the Serbians, practically approves and commends them.

A Vienna dispatch to the Daily Mail clearly states the Austrian position. The overwhelming majority of the not only in Austria but in the whole of the Balkan peninsula, would not only not object to the Serbian advance, but would actually welcome it.

The Bystander holds that the day of the war correspondent is over, saying: "Commanding generals have learned the lesson, taught by the South African war and the Manchurian war, that the war correspondent is a menace to successful strategy."

## BLAMED FOREIGNERS

For Large Increase in the Canadian Drink Bill

Renfrew, Ont.—It is the people who come to us from all the nations of the earth that we blame for a large part of the increase of our annual drink bill in spite of our local option victory; also for the menace of the slum problem in our cities.

This extract from the annual address of the provincial president of the W. C. T. U., Mrs. E. A. Stevens, Toronto, was the dominant note in the proceedings this afternoon at the convention in session here. Mrs. Stevens dwelt at length on the import and consumption of spirits in Canada, the local option victories won in the province and the rancorous question.

Col. The Hon. Sam Hughes received a considerable modicum of praise in the president's address for his action in regard to the abolishing of the caneen system.

## Getting Little Real News

London.—The newspapers of England, which have a brigade of special correspondents as near the front as the rival army commanders will allow them to go, are angry over their day's showing, considering the immense expense they and themselves pay for long dispatches containing state information and dramatic descriptions of places which the armies occupied the week before.

Punch hits the nail on the head by publishing a cartoon with the caption "The Freedom of the Press," and shows a war correspondent blindfolded and mounted on a blindfolded horse. Two Balkan soldiers, with fixed bayonets stand on each side of him while he is trying to write despatches.

The Bystander holds that the day of the war correspondent is over, saying: "Commanding generals have learned the lesson, taught by the South African war and the Manchurian war, that the war correspondent is a menace to successful strategy."

## TO SHIP GRAIN SOUTH

ANOTHER OUTLET FOR THE REMOVAL OF CROP

It is Expected that the New Channel will Greatly Relieve the Congestion at the Terminal Elevators—Grain to be Shipped to Minneapolis Mills.

Moose Jaw.—Starting on November 8, grain will be shipped to Minneapolis and St. Paul at the same rate that it is now shipped to Port William and Port Arthur.

This concession means much to Southern Saskatchewan, for grain will be shipped to the Minneapolis mills from here and from points east of here in large quantities. It is short, this concession on the part of the C.P.R., will probably drain southern Saskatchewan and Alberta of its wheat, for navigation on the great lakes will soon be at an end, and then this will be a second outlet for the crop of the Canadian northwest.

Millions of bushels of grain, which otherwise would be shipped east to Port William and stored there for the winter, will be sent south, and the terminal elevators will have a better opportunity to accommodate all the grain sent there which is too late for shipment east.

The car congestion is already serious in the southern portion of this province and in Alberta.

The C.P.R. has also announced a reduction of 15 per cent. in settlers' rates from the Pacific Coast states. This has been done with a view to obtaining more immigrants for Western Canada from the settlers resident on the Pacific slope south of the boundary.

## Polish Feeling Awakened

London.—A despatch to the Daily Mail says:

For the first time since Napoleon's invasion of Russia a hundred years ago the White Eagle of Poland is raising its head and looking to the threatened conflict between Austria and Russia to free the Polish nation from the hated Russian yoke.

While the eyes of Europe are riveted on the battlefields of Thrace and Macedonia, a great national movement is spreading in Poland. It seems to unite all the Poles in common action for the possible outbreak of hostilities between Russia and Austria. The Polish nation numbers twenty-five million, of whom twelve million are Russian subjects, and over six million Austrian subjects. There are two million Poles in America.

The information upon which the correspondent bases the foregoing is somewhat slim, being to the effect that meetings are taking place all over Galicia with a view to removing the political differences existing between the different parties in Poland and between the Poles and Russians.

## SUFFRAGETTE IS FREED

Miss Gladys Evans Has Had Punishment Enough, Holds Magistrate

Dublin.—Miss Gladys Evans, the militant suffragette, who was rearrested October 27 for failing to report to the police, was discharged, the magistrate holding that the six days she had remained in jail was sufficient punishment.

Miss Evans, who was sentenced August 7 to five years in prison for incendiarism, is out on license. After her release again today she declared that no matter how often she was arrested and punished she would not report herself to the police.

## NEW SUFFRAGETTE PHASE

Australian Women Resist Law Against Long Hatpins

Sydney, N.S.W.—For wearing hatpins that protruded too far, most of them prominent in society, four women were convicted and fined today in a Sydney court. They went to jail rather than pay their fines, declaring they would not submit to iniquitous and unnecessary legislation.

The city authorities face a situation similar to that growing out of the suffragette demonstrations in England, as the women assert that if further arrests and imprisonment are ordered because of the hatpin ordinance they will declare a hunger strike in jail.

## Coal Fields in North

Vancouver.—Malloch of the Dominion geological survey, Ottawa, who has just returned from the Ground Hog basin, a new coal field in the north, says:

The field is hardly so extensive as at first supposed and is somewhat cut by faulting. There are promises, however, to be an enormous tonnage available for mining if the coal can be described as an anthracite, picked samples running at 35 to 85 per cent in fixed carbon. One Vancouver company which is doing quite a lot of development will keep a party of workmen there during the winter.

## Canvass of Volunteers in Vancouver

Vancouver.—In view of the possibility of a conflict in Europe, members of the volunteer militia in Vancouver during the last few days have been quietly approached with a view to ascertaining whether or not they are ready to go out to fight. The canvass of the men has been carried out in the quietest manner possible, much in the same manner it was done before the calling of the colonial forces together at the time of the Boer war.

## Heroism Honored

London.—The king has awarded the Edward medal (second-class) to Ernest Thackeray, who entered a man hole in a blast furnace at Scunthorpe, to rescue a fellow workman named Lightowler, who was overcome by gas. Lightowler was dead when he was taken from the manhole, and Thackeray was unconscious till the next day.

## Bob Service Off to Balkans

Toronto.—Robert W. Service, author of "Songs of the Soud Dough," and other poems and stories of the Yukon and the west, is off to the Balkans in the hope of seeing some of the fighting between Turkey and the Balkan States. He will leave New York on Friday.

## IMMIGRATION TO AUSTRALIA

In Seven Months 95,592 Went to Colony But in Same Time 45,623 Left

Ottawa.—According to official reports received here the Australian commonwealth during the first seven months of this year received 95,592 immigrants, while no less than 45,623 left the colony, thus showing a net gain in the immigration of only 49,969 during the period stated. Of the total arrivals 83,640 were British, the balance being composed of Germans, Italians, Russians, Greeks, Danes and a limited number of Asiatics and colored people. The activity of some of the Australian states in sending capable officers to Great Britain and the extensive circulation of the Immigration literature, are in the main, responsible for the increased figures. All the third class accommodations on the principal lines of steamers leaving London for the Australian ports have been booked for several months ahead.

It is estimated that the present year will constitute a record as regards the number of immigrants landing in the commonwealth.

## Calgary Seeks More Lines

Calgary.—Strong effort to induce the C.P.R. to construct a number of extensions which will in effect form a railway belt of the territory contiguous to Calgary, will be made by the Calgary board of trade. Following are the extensions and branch lines which the board will strive to have the C.P.R. build:

A branch from a point at, or near Calgary to a point at, or near Cowley and then south-easterly.

A branch from point at, or near Binette, to a point on the Aldersyde-Lebridge line, to a point on the Suffield-Kipp line, at or near township 12, range 15 west of the fourth meridian.

The extension of the Suffield-Kipp line in a north-easterly direction to a point near the mouth of the Red Deer River to connect with the Swift Current-Bassano line.

## Adopt Metric Carat

New York.—Fifty leading jewellers of the United States voted to adopt the metric carat as the standard of weight for diamonds. Under the new standard a carat will weigh 200 milligrammes; under the old it weighs 205 milligrammes. The international carat is in use all over the world, except in England, Holland, Belgium and the United States. A committee was appointed to ask congress to make it the only legal carat in the country.

## Edmonton to St. Paul

Moose Jaw.—Next spring a through train between Edmonton and St. Paul will be put on over the Outlook branch which was opened last week. It will be a fast service and will shorten the time between those two cities by some twenty hours. Already the freight traffic over that branch is very heavy, over one hundred cars being received in one day from the north.

## Offers a Third Cup

Chicago.—Sir Thomas Lipton will offer a third cup to be sailed for on the Great Lakes, according to an announcement he made here at a luncheon given him by Chicago yachtsmen. The naming of the class in which the competition will be held, was left to a committee. Sir Thomas already is the donor of the Lipton trophy and the Columbia Yacht Club cup.

## Railway Board Coming West

Ottawa.—The first autumn Western sittings, the Railway Commission has held within recent years will commence at Winnipeg November 11. The board will also include in its itinerary Lebridge, Regina, Moose Jaw, Calgary, Lethbridge, the Pas, Edmonton, Nelson, Vancouver and Victoria. A sitting will be held in Fort William on the 8th.

## Calgary Gets Valuable Collection

London, Ont.—The city of Calgary is to be the recipient of James Turner's famous collection of naturalist specimens. J. L. Moody of that city having purchased it from the London owners for the Calgary museum. The specimens of birds, animals and curiosities have been collected for the last half century.

## Should Study Labor Conditions

Ottawa.—F. C. Wade, K.C., president of the Industrial Peace association, in an address before members of the board of trade advised a deeper interest and more study of the labor situation by the general public in Canada as one of the solutions of industrial difficulties.

## THE MARKET REPORT

Weekly Grain Letter Supplied by Thompson, Sons & Co., Grain Merchants, Winnipeg.

Winnipeg, Oct. 23rd, 1912.—The world's wheat market during the past week has been fluctuating between the fear of the influence to advance prices on the part of possible developments in the European war, and the fact that abundance of wheat and other grain has been produced this year in Europe and North America, and the prospect that the next wheat crop in India and in the wheat growing countries of the southern hemisphere may also turn out large yields. For some days after the date of our last weekly review, there was a generally easier feeling in all wheat markets, and the strong market and sharp advance that took place from the 9th to the 14th inst., with its subsequent sharp reaction, was merely passing out of mind. Yesterday and today, however, a renewal of the war scare sentiment has occurred and given prices another boost, and from the close of American and Canadian markets on Monday until the close of today prices show advances of 1½ to 2c. per bushel, and roughly they are 1c. higher than they closed this day week. Naturally in the present situation of things there must be thousands of merchants, millers and bakers, who desire to increase their holdings of the different grains

and grain products they deal in. Such buyers are usually looking for a decline in prices before coming into the market to buy more than they need for immediate requirements, and this season many of them have doubtless held off, knowing that large crops had been raised and must come on the market sooner or later. The unfavorable weather in both Europe and America during August and September made great delay in the movement, and in the meantime the political situation in Europe broke down, taking most people unaware. It is scarcely more than two weeks since this happened, but the feeling of apprehension has been aroused, and it will probably wax and wane as the changing developments of the war situation are announced. In the meantime there has sprung up a largely increased demand for actual wheat by the legitimate trade and along with it increased speculative buying, and covering of contracts by shorts in the speculative markets, all tending to advance prices at present, but it will be well to remember that in spite of the war the production of grain and feed stuffs in the northern hemisphere in this year has been unusually large in the aggregate, and provides a surplus above the year's requirements. Therefore, while we may see a more or less considerable advance in prices through sentiment caused by the war, or which is more likely a series of advances and declines as the war progresses, prices will in time come back to their commercial level as governed by supply and demand for consumption, and the evidence is that for some time to come the supply will be large and liberal. The movement of the crops has been delayed but in the United States and western Canada at least it is now in full swing. Visible supplies are increasing, but the shipping and export trade being so large the accumulation in storage centres is not so large as might be expected from the size of the movement. The primary movement in the United States since July 1st to date has been 137,073,000 bus. of wheat against 92,793,600 bus. in same period last year, an increase this year of 44,280,000 bus. and yet the U.S. visible supply is only 38,688,000 bus. against 61,815,000 bus. a year ago. Increase of exports of wheat and flour to Europe and the filling to some extent of depleted stocks in the domestic trade, accounts for this great absorption of the primary movement as compared with a year ago. Last week the increase in the U.S. visible supply was 2,251,000 bushels compared with an increase of 1,534,000 bus. a year ago. Our Canadian visible supply increased 2,224,000 bus. for the week compared to an increase of 483,000 bus. last year and it now stands at 11,428,000 bus. against 7,430,000 bus. a year ago. The European visible increased 3,486,000 against an increase of 1,200,000 bus. a year ago, and is now 8,660,000 bus. against 8,428,000 bus. a year ago. The outlook for growing wheat crops and the seeding of new winter wheat crops in the various countries is good. In the Argentine and Australia the crops to be harvested in December and January are making good progress under favorable conditions. The month of November is liable to be a critical month on the crops in these countries as they are apt to run into drought but so far the prospect is satisfactory. This week the International Agricultural Institute at Rome issued its estimates of the yield of the crops in the northern hemisphere for 1912 with comparison with 1911 as follows, in bushels, viz:

	1912	1911
Wheat	3,262,648,000	3,042,400,000
Corn	3,594,574,000	2,236,348,000
Rye	4,289,620,000	3,536,340,000
Barley	1,382,855,000	1,258,560,000

These figures include all the world's crops except the Argentine, Australia and Chili.

In our Winnipeg market trade during the week has been active and demand usually good. The movement of grain from the west is now the largest on record. In the last seven days there have been inspected at Winnipeg 7034 cars of wheat against 5699 cars in same period last year. This means that there are over a million bushels of wheat per day rolling past Winnipeg, besides from 250 to 300 cars per day, composed of oats, barley and flax. The big movement has begun to cause accumulation in the terminal elevators at Port William and Port Arthur. Last week there was an increase of 2,191,592 bushels of wheat at these points, and the total amount in store was 8,010,226 bus. against 5,898,110 bus. a year ago. The shipments were 3,877,051 bus. against 4,285,775 bus. same week last year. The percentage of No. Grade, or tough wheat coming along is now much less than it was two or three weeks ago. Today's cash prices are:

## Read This Then See The Call Man

The editor doesn't know it all. (Applause and loud hand clapping). But he could know a lot more if you helped him. When your friends come to see you, if the police are not after them, tell the editor about it; when your wife gives a tea party, slide out of the back door and bring the gossip over to the paper; when a baby arrives, call on your way to see the boys, if you go to a party, hook a few good things and treat the editor. If your wife likes you, come and let us see your scars, and we will tender sympathy through the paper; if your mother-in-law has decided to take her virtues where they are more appreciated, don't be bashful about it, but let the world rejoice with you. In short whatever makes you proud or sad, lonesome or glad, submit it to our 24 karat, all-wool-and-a-yard-wide, warranted not to rip wear tear or ravel or run up the heel wisdom, and see our heels stand on end with gratitude which will pour from every pore like moisture from the dew besprinkled earth.

## Pity The Poor Newspaper Man

The newspaper man is a very guileless individual. He is easily talked into fool schemes that he gets after a while to pity himself. He often stands off and looks at himself biting at some wildcat venture and thinks what a blague fool he can be if he only gets a chance. A man comes into his office with a magazine for sale, and tells him how interesting the pointers in it would be to his readers. Before three minutes he wonders how he ever got along without it. A man with some advertising scheme approaches him and tells him that if he puts an ad in his directory or magazine, the good it will do his city will be incalculable.

Every scheme charitable or fake, that is started in his town solicits his aid at the very start. The old farfetched of wanting the most influential men first is shoved out to do his duty and he is made to feel that he must make a public benefactor of himself, even if it keeps him poor, or he is not fulfilling his position in the community. If a friend is needed for any old thing under the sun he is supposed to contribute. Every concert or show given locally is a dollar out of his pocket, if he lets himself be bamboozled. Some editors make money, but there isn't a fund in the city that lets him keep it. Somebody gets a dollar's worth of printing done and on the head of it holds the editor up for a two dollar contribution, and a free advertisement. Everything done for a newspaper is expected to bring its reward a hundred fold and a newspaper is under obligations to everybody they think. Anything a newspaper does for anybody, (and if people only knew it the paper is always doing something for them) is only to be expected.

Prairie Lodge No. 441, O. O. F. held a successful smoker in the Orange Hall on Monday evening last.

A Queenstown farmer notes that the Calgary Board of Trade is endeavoring to make that city a railway hub, and wants to ask the farmers of that famed district why they don't get busy and ask that Board to assist them in getting the railway they are howling so much about?

Close season for prairie chickens.

## What You Can Grow On a Queenstown Farm

The statement that the Queenstown district is a fine agricultural country is often made in the CALL, but remembering the old proverbial saying that the proof of the pudding is in the eating, I suppose it takes more than a statement to convince some people.

Therefore, I will give the results of my own farm for 1912 and will state that I don't consider my land better than the average, neither do I lay claim to any superior knowledge of farming for it is practically only five years ago that I landed out here on the prairie "green from the city", with it all to learn and still have a lot to learn, and have no doubt but many others here can show much better results. But let them tell their own story here is mine:

I had about 200 acres in crop this year as follows: 155 acres in wheat, 35 acres in oats, 3 acres in alfalfa, about 1 1/2 acres potatoes, the balance being in garden truck, etc. Like many other people I had no chance to plow last fall nor anytime last spring so I had to put some grain in on stubble. I put 35 acres of stubble land into oats. From the 25 acres threshed I got 10 bushels to the acre, the other 10 acres I stacked for horsefeed. 43 acres of wheat put in on stubble yielded 21 bushels per acre and 20 acres also on stubble gave 23 bushels to the acre. The wheat put in on new breaking yielded as follows: 20 acres 40 bushels per acre, 8 acres 50, 10 acres 42, and 55 acres 35 per acre. Unfortunately the 55 acre piece got too ripe before it was cut and it shelled badly. I think it shelled more than 5 bushels per acre.

From three acres of alfalfa I cut six big loads of hay and could have taken another cutting of perhaps four loads only for the fact that being too busy threshing, etc., I left it too long and it was caught by the frost so I let the cows in on it.

The 1 1/2 acres of potatoes yielded 500 bushels of fine large tubers.

In the garden truck line I had about 50 bushels of yellow turnips, weighing from 10 to 15 pounds a piece, 2 bushels yellow onions, 3 bushels kohlrabi, 5 bushels parsnip, 2 bushels carrots, 2 bushels beets, quite a little green kale, oyster plant, spinach, lettuce and radishes.

I had about 6 dozen heads of splendid cabbage, some of them weighing 15 pounds, also several dozen cauliflowers as big as a water pail. From about August first till October first my family had all the green peas, wax and string beans and sweet corn that it was possible to eat. The only things that were a failure this year were tomatoes, citron, pumpkin, squash and cucumbers. For some reason or other this truck did not start growing until too late but that doesn't mean that we cannot raise it in Queenstown. Four years ago I had a wagon load of fine yellow pumpkins 3 different kinds of squashes, several bushels green tomatoes and some citron and cucumbers.

The orchard part of the farm is still very much in its infancy, owing to various causes, such as change of location, etc. About two years ago I obtained 1000 young trees from the government, these have made a splendid growth and I expect to get some more next spring. Inside of this shelter belt I raised enough rhubarb last summer to supply the family, besides having some to preserve. I also have a small plantation of gooseberries, currants and raspberries that yielded quite a few, particularly the currant bushes, this summer. I have made two failures trying to raise strawberries, but I think the cause of failure was in getting the plants from eastern points. They were too much dried out before I planted them. The few plants that survived bore some fine big berries this summer and I feel sure that by getting plants of the right kind from western nurseries, I shall have strawberries in the future. In

short, I have visions of a fine garden, enclosed by a good shelter belt where I shall grow all the small fruit—strawberries included—for family use and perhaps some apples and plums.

JOHN GLAMBECK.

Rev. Mr. Gold gave an illustrated temperance lecture on Tuesday evening in the Methodist church. A branch of the Temperance and Moral Reform Association was afterwards formed with the following officers:

President—J. C. Buckley  
Vice-Pres.—Mrs. J. McEwen  
Secy.—Treas.—Rev. Mr. Dougan

The Ranching and Grazing Commission will sit in Gleichen on November 18th.

Mr. and Mrs. A. Perron are happy in arrival of a son on Oct. 31st.

The Hand Bell Ringers Sat. night.

Saturday night the Opera House will provide Gleichen music lovers with a great treat in the Hand Bell Ringers. Don't miss it.

D. L. Breerton has returned from Calgary where he has been undergoing treatment for rheumatism. He has improved considerably.

## Gibson & Larkin

BAKERS

Gleichen. - Alta.

### MISCELLANEOUS

STRAY—Bay horse, weight about 1150 lbs., white saddle marks on back, branded on both shoulders indistinctly. Was turned in to Circle Farm, this summer and appeared to have been ridden very hard when first seen. Owners have same by paying expenses. Apply O. T. Colquhoun, Circle Farm, Queenstown.

FARMERS or RANCHERS wanting to buy Young Cattle at a reasonable price, enquire by mail to Nelson Irving, Gleichen, Alta.

Taken up, 10th Oct. at Namaka, one brown gelding branded **3NE** on left shoulder, shod in front. Owner pay expenses and remove from Namaka Livery Barn.—G. P. P.

\$5.00 REWARD will be paid for the recovery of one lady's Matting Suit Case with the initials A. I. W. on the side. Anyone returning same to R. N. W. M. P. Barracks will receive the above reward. The suit case was lost on the 28th Sept., 1912, between Cosgrave & Nott's store and the Indian Shipping Corral.—A. J. Wilson Bassano.

LOST—Black gelding, 4 white feet, 9 years old, height 14 2/3, wire cut on off hind foot, branded **N** near shoulder, Pinto, bay and white gelding, 8 years old, height 14 1/3, whitering round near eye, branded **N** near shoulder. \$20 reward each will be given for recovery. C. Bruce, Cluny.

## ARIAL BROTHERS

Have Leased the Pioneer Store of Gleichen  
And on

Saturday, November 2nd

Opened up

An Entirely  
New Stock  
of Groceries

LET US EXPLAIN—J. A. E. Beaupre, the Pioneer Merchant of Gleichen having retired from business and disposed of his entire stock, we have leased his premises and on Saturday will open up an entirely new stock of Groceries and continue the business which Mr. Beaupre and his father before him, so successfully carried on during the past twenty-nine years. We will endeavor to carry on the business on a modern basis and with the same courteous treatment that has characterized the Pioneer Store since Gleichen was first named by Mr. Beaupre. Our line for the present will be groceries but we hope to add to this a general store business as trade increases. All we ask you to do is

## Give Us A Trial

We believe that we can convince you that  
we can give you the best value for  
your cash.
